EDUCATION

University of Georgia, Morehead Honors College, School of Computing <i>Bachelor of Science in Computer Science</i> National Merit Scholarship Presidential Scholar Fall 2024-Spring 2026	Athens, GA <i>Expected Spring 2027</i> GPA: 3.98/4.00
--	---

CERTIFICATIONS

Security+, Google Cybersecurity Professional Certificate V2, Cisco Networking Basics

WORK EXPERIENCE

Computer Science Teaching Assistant Atlanta, GA <i>SMASH Morehouse</i>	April 2026 – July 2026
--	------------------------

- Facilitated small-group instruction and one-on-one assistance for approximately 30 students
- Supported lead facilitators with grading assignments, tracking class participation, preparing classroom materials, and helping students troubleshoot code or other technology issues
- Implemented daily lesson plans over Data Science and AI apis alongside the lead facilitators

Undergraduate Research Athens, GA <i>UGA AI4STEM Education Center</i>	August 2025 – April 2026
---	--------------------------

- Assisted graduate researchers in scoring 1000+ student responses for testing LLM
- Collaborated with other researchers to design a study tool and research if GenAI can be used to improve students' learning retention while studying course material

PROJECTS

CineCache Java, Spring Boot, JDBC, MySQL, Mustache	May 2026
---	----------

- Spearheaded development of a responsive web application for reviewing movies using Spring Boot and JDBC
- Rendered dynamic user interfaces by integrating Mustache template engines with backend controllers
- Implemented security features to prevent vulnerabilities such as SQL injections and IDOR attacks

Class Forum Website React, TypeScript, MongoDB, Tailwind, Motion	April 2026
---	------------

- Co-developed a responsive full-stack web application using React and TypeScript to manage inflow of data from external APIs and our Mongo database
- Designed modern user interfaces using Tailwind CSS and added fluid animations using Motion

SKILLS

-
- **Programming and Scripting:** Java, Python, C, Bash, MySQL
 - **Tools and Technologies:** Git, Wireshark, Nmap, Metasploit
 - **Web Development:** HTML, CSS, JavaScript, React, Tailwind, Vue.js

RELEVANT COURSEWORK

Data Security and Privacy, Computing Networks, Database Management, Data Science II
